

ALABAMA UTILITY CONTRACTORS ASSOCIATION

TIM AYERS, EXECUTIVE DIRECTOR
JULY 2021

Director's Comments:

Earlier this month, AUCA made \$1,500 payments on behalf of our 2021 scholarship program winners to their respective universities. Since the AUCA scholarship program was implemented four years ago, we have now made a total contribution of \$28,500 for children or grandchildren of AUCA members. We are pleased to offer this program as an additional benefit to our members, and to help these bright young men and women further their education. The AUCA Board of Directors has voted to make a few subtle changes to the scholarship program for next year, and those will be announced soon.

Speaking of the AUCA Board of Directors, we are soliciting the membership for suggestions of individuals to serve on the 2022 Board. If you have someone in mind that you think would be an asset on the AUCA Board, please contact us by August 31st to nominate them. If you are interested in serving yourself, please feel free to list your name as well.

One of the items that our Board is currently tackling pertains to the interpretation of the Sales and Use Tax Exemption for sanitary sewer products under the Air and Water Pollution Control Exemption. While undergoing a Sales Tax Audit, some companies are being told that sanitary sewer products may not be exempt from sales tax.

AUCA plans to work with the Alabama Department of Revenue to help resolve this issue on behalf of our members. If you or your company have any questions or concerns on this matter, please contact the AUCA office.

Tim

Upcoming Meetings & Events:

Identifying and Leveraging Your Socioeconomic (dis)Advantages Webinar:

During the month of August, BMSS and Bradley will be hosting a three-part webinar series discussing SBA contracting assistance programs. The webinars will take place on August 3, 10 and 17, 2021 and will last approximately one hour each.

In this first webinar on August 3, Kate Fluker, a senior manager with BMSS, will discuss the various contracting assistance programs available through the U.S. Small Business Administration (SBA) for small and/or disadvantaged construction companies, including how to qualify for and maintain good standing with the programs. She will also take a quick look at specific government contract opportunities available to members of these programs.

Webinar Details
Tuesday, August 3, 2021
2:00 p.m. to 3:00 p.m.

[Register](#)

No cost to attend / Registration is required /
 CPE available if registered with a valid email address and full name.

Parts 2 and 3:

- August 10 - "Managing Risk: From Internal Employment Issues to Common Contracting Pitfalls"
- August 17 - "Small Business Set Asides: How to Qualify and Compete"

AUCA "In-Person" Industry Lunch Meetings
Dates and Locations To Be Announced Soon

Upcoming Meetings & Events:

News & Notes:

AUCA 2022 Board of Directors Nominations:

AUCA will be soliciting the membership for suggestions of people to serve on the 2022 AUCA Board of Directors. If you have someone in mind that you think would be an asset on the AUCA Board, please email us by August 31st to recommend them to the AUCA Nominating Committee. If you are interested in serving yourself, please feel free to list your name as well.

Nomination Forms will be sent out electronically to all member companies. The Nominating Committee will review the nomination forms of those desiring to serve on the 2022 Board at the September 8th AUCA Board Meeting. The proposed slate of nominees will be announced to the membership and the candidates will be voted on by the members in attendance at the October 14th General Meeting in Montgomery.

Recognize Safe + Sound Week, August 9-15, 2021:

Safe + Sound Week is a nationwide event held each August that recognizes the successes of workplace health and safety programs and offers information and ideas on how to keep America's workers safe.

Why Participate?

Successful safety and health programs can proactively identify and manage workplace hazards before they cause injury or illness, improving sustainability and the bottom line. Participating in Safe + Sound Week can help get your program started, energize an existing one, or provide a chance to recognize your safety successes.

Who Participates?

All organizations looking for an opportunity to recognize their commitment to safety are welcome to participate. Last year, more than 3,400 businesses helped to raise awareness about workers' health and safety!

News & Notes:

Governor Ivey Announces Appointment of Representative Bill Poole to be State Finance Director:

Governor Kay Ivey announced that she has appointed Representative Bill Poole (R-Tuscaloosa) to serve as Alabama's Finance Director upon the retirement of current Director Kelly Butler. Poole's appointment is effective August 1.

Poole is a member of the Alabama House of Representatives and has served as the House Ways and Means education chairman, the committee that oversees the Education Trust Fund (ETF) for the last eight years. In 2019, Poole was instrumental in the crafting and securing passage of the Rebuild Alabama Act to provide for increased infrastructure funding.

Notice of ADEM Director Job Performance Evaluation:

The Alabama Environmental Management Commission (AEMC) Chair directed the Personnel Committee to obtain written comments from the full Commission and the general public on ADEM Director LeFleur's job performance and further directed the Personnel Committee to return to the full Commission with a compilation of the written comments and any recommendations by the Committee relative to Director LeFleur's job performance. The Personnel Committee, on behalf of the AEMC, wishes to solicit input from the general public that will aid the Committee in this job performance evaluation.

The Chair of the Personnel Committee requests, on behalf of the Committee, that written comments from the general public regarding Director LeFleur's job performance be directed to: Alabama Environmental Management Commission, Attention: Personnel Committee, P.O. Box 301463, Montgomery, AL 36130-1463, or by email at aemc@adem.alabama.gov.

The evaluation period for which written comments regarding Director LeFleur's job performance are requested is from October 10, 2020, the day after the Commission reached its decision relative to the last evaluation, to July 30, 2021, the deadline for receipt of comments for this current evaluation.

Written comments should include "ADEM Director Job Performance Evaluation" as the subject of the comments and must be received by the Personnel Committee no later than 5:00 p.m. on July 30, 2021.

News & Notes:

OSHA Schedules Meeting of the Advisory Committee on Construction Safety and Health for August 11:

The U.S. Department of Labor's Occupational Safety and Health Administration has scheduled a meeting of the Advisory Committee on Construction Safety and Health for 1 p.m. to 5 p.m. EDT, Wednesday, Aug. 11, 2021.

The meeting will include agency updates and remarks from Acting Assistant Secretary of Labor for Occupational Safety and Health Jim Frederick, OSHA Directorate of Construction industry updates, a discussion of the OSHA Construction Focus Four Hazards, an ACCSH Workgroup discussion, and a public comment period.

Comments and requests to speak must be submitted electronically at <http://www.regulations.gov>, the Federal eRulemaking Portal, by Tuesday, July 27. Include Docket Number OSHA-2021-0004 on all submissions. Attendance at this meeting will be virtual only. Telecommunication information will be posted in the docket and on the ACCSH webpage. Read the Federal Register notice for submission details.

Go Build/Craft Training Board Grant Program Survey:

The Alabama Construction Recruitment Institute (ACRI) has been hard at work with the Go Build campaign to generate momentum for construction recruitment in Alabama. Also, they have partnered with the Alabama Construction Industry Craft Training Board (ACICTB) to help implement their Grant Program.

To gain a better understanding of the workforce issues contractors are facing, they have created a short survey. Please take a few minutes to complete this survey. This information will help ACRI better inform the public about construction career opportunities and better serve contractors interested in applying for training grants through the ACICTB Grant Program.

[Click Here to Complete Survey](#)

We appreciate your partnership and participation in advance as we continue our efforts to building a stronger construction workforce in Alabama. Please feel free to reach out to ACRI or AUCA with any questions.

Health & Safety:

Avoiding Heat Stress

The sun and warm weather of summer can also bring special hazards for those working outdoors. The combination of heat, humidity and physical labor can lead to fatalities. The two most serious forms of heat-related illnesses are heat exhaustion (primarily from dehydration) and heat stroke, which could be fatal. Signs of heat exhaustion or heat stroke need immediate attention. Recognizing those warning signs and taking quick action can make a difference in preventing a fatality.

The following are guidelines all employees should follow during the warm weather months:

1. Understand what heat stress is and be able to recognize the symptoms. It is a signal that says the body is having difficulty maintaining its narrow temperature range. The heart pumps faster, blood is diverted from internal organs to the skin, breathing rate increases, sweating increases, all in an attempt to transfer more heat to the outside air and cool the skin by evaporation of sweat. If the body can't keep up then the person suffers effects ranging from heat cramps to heat exhaustion, and finally to heat stroke.

Symptoms of **Heat Exhaustion** include headaches, dizziness, lightheadness or fainting; weakness and moist skin; mood changes such as irritability or confusion; upset stomach or vomiting.

Symptoms of **Heat Stroke** include dry, hot skin with no sweating; mental confusion or loss of consciousness; seizures or convulsions. Seek professional assistance immediately.

2. Dry clothes and skin do not mean that you are not sweating. In dry climates, you might not feel wet or sticky, but you are still sweating. On a very warm day, you can lose as much as two liters of fluid.

3. Beat the Heat. Help Prevent the ill effects of heat stress by:

- Drinking water frequently and moderately (about eight ounces every 15 minutes.)
- If possible, avoid direct sunlight or other heat sources.
- Plan your day to tackle more strenuous jobs during the cooler morning hours.
- Utilizing the ventilation or fans in enclosed areas.
- Rest frequently in cool, shaded areas.
- Avoid alcoholic or caffeinated beverages and eat lightly.
- Remembering that it takes about one to two weeks for the body to adjust to the heat; this adaptation to heat is quickly lost — so your body will need time to adjust after a vacation or extended absence.
- Wearing lightweight, light-colored and loose fitting clothes.

4. Be prepared to act. In the event you recognize these symptoms in yourself or a co-worker, immediately notify your supervisor and contact emergency professionals.

Things you need to know:

- Heat illness can strike quickly—learn to recognize the symptoms.
- Workers with heat illness should stop working, get cool, and drink fluids.
- Altered mental state can be a sign of heat stroke and requires immediate attention.
- When treating severe heat illness, cooling is the first priority.

HEAT STRESS

First Aid for Heat Illness

Cooling is key. Know the symptoms and treatment of heat illness.

Signs and Symptoms

Symptoms can occur in any order. For example, a person will not always experience heat cramps before they suffer from heat exhaustion.

What to Do

Less Severe	Heat Rash/Prickly Heat	
	<ul style="list-style-type: none"> • Red cluster of pimples or small blisters, usually on neck, upper chest, groin, under breasts, and in elbow creases • Extensive areas of skin that do not sweat on heat exposure, but present gooseflesh appearance that subsides with cool environments 	<ul style="list-style-type: none"> • When possible, a cooler, less humid work environment is the best treatment • Keep rash area dry • Powder can be applied to increase comfort • Do not use ointments or creams, as they may impair cooling—warm, moist skin can make the rash worse
Severe	Heat Cramps	
	<ul style="list-style-type: none"> • Muscle cramps, pain, or spasms in the abdomen, arms, or legs 	<ul style="list-style-type: none"> • Drink fluids every 15 to 20 minutes and eat a snack or sports drink • Avoid salt tablets • Get medical help if the worker has heart problems, is on a low sodium diet, or if cramps do not subside within 1 hour
OFTEN FATAL	Heat Syncope (Fainting)	
	<ul style="list-style-type: none"> • Fainting, dizziness, or light-headedness after standing or suddenly rising from a sitting/lying position 	<ul style="list-style-type: none"> • Sit or lie down in a cool place when beginning to feel faint or dizzy • Slowly drink water or clear juice
OFTEN FATAL	Heat Exhaustion	
	<ul style="list-style-type: none"> • Headache • Nausea • Dizziness, weakness • Irritability • Thirst, heavy sweating • Elevated body temperature • Decreased urine output 	<ul style="list-style-type: none"> • Call for medical help or take worker to a health facility for evaluation and treatment • Stay with worker until help arrives • Remove worker from hot area and give liquids to drink • Remove unnecessary clothing, including shoes and socks • Cool worker with water, cold compresses, an ice bath, or fans • Encourage frequent sips of cool water
OFTEN FATAL	Heat Stroke	
	<ul style="list-style-type: none"> • Confusion, altered mental state, slurred speech, loss of consciousness • Hot, dry skin or profuse sweating • Seizures • Very high body temperatures • Fatal if treatment delayed 	<ul style="list-style-type: none"> • This is an emergency! Call for emergency care immediately! • Move worker to a cool area and remove outer clothing • Cool worker with water, cold compresses, an ice bath, or fans • Circulate air around worker to speed cooling • Place cold, wet cloths or ice on head, neck, armpits, and groin • Stay with worker until emergency medical services arrive

Clean Water Construction Coalition Report

From Dan Kennedy - Chairman CWCC & Sante Esposito - Key Advocates

July 28, 2021

The Senate voted to move forward today on a bipartisan infrastructure deal, a major breakthrough after weeks of plodding negotiations. In a 67-32 vote, 17 Republicans joined all 50 Senate Democrats in beginning to consider the \$550 billion package. While Wednesday's vote is a positive sign, it could be a week or more before the bill ultimately clears the chamber. The bipartisan infrastructure deal is a top priority for President Joe Biden, and Senate Majority Leader Chuck Schumer has vowed that the Senate will pass it before the August recess.

July 1, 2021

PRESIDENT BIDEN STRIKES \$1.2 TRILLION STIMULUS DEAL

You received a recent update that highlighted a breakthrough on the much-anticipated federal infrastructure funding. Whether through a stimulus package, base bills, or both, several items we have been advocating for have the real potential to significantly boost water infrastructure construction spending and more.

The announcement from President Biden on a bipartisan infrastructure package was met with disagreement from the extremes of both parties. The agreement focuses on investments in roads, railways, bridges and broadband internet, but it does not include investments Biden has referred to as "human infrastructure," including money allocated for childcare and tax credits for families.

Key Advocates highlights what's included in the agreement and the plan to pay for the \$1.2 Trillion / 8 Year plan with more than \$500 billion in new spending. Here's a look at what's included in the agreement for water and "other" related infrastructure, according to the White House fact sheet:

Water and "other" infrastructure: \$266 billion in Total

Water: \$55 billion
 Broadband: \$65 billion
 Environmental remediation: \$21 billion
 Power, including grid authority: \$73 billion
 Western water storage: \$5 billion
 Resilience: \$47 billion

Clean Water Construction Coalition Report

(Continued from page 9)

The measure is expected to be taken up when Congress reconvenes in early July and will face opposition from factions of both parties. Senate Majority Leader Chuck Schumer and House Speaker Nancy Pelosi met with White House officials and have signaled some support for the bipartisan framework. However, they have also stated they will only advance the bill alongside a second agreement addressing additional progressive priorities such as childcare and other "human infrastructure" policies. Senate Minority Leader, Mitch McConnell is reported to be undecided, but "remains open minded" about the deal.

We look forward to seeing the details of this landmark package and will keep you updated as it progresses.

CONGRESS CONTINUES TO ADVANCE BASE FUNDING BILLS

In addition to the stimulus package, both houses of Congress have been working to advance infrastructure base funding bills, with the House expected to hold a floor vote next week on the INVEST In America Act, which is inclusive of both transportation and water infrastructure.

For water infrastructure, the House Energy and Commerce Committee bill includes \$53 billion for the Drinking Water State Revolving Fund and \$45 billion to replace lead service lines, as well as \$40 billion for the Clean Water State Revolving Fund. In the upper chamber, as previously reported, the Senate Environment and Public Works Committee in May advanced a surface transportation reauthorization bill that would increase funding by about 34% over FAST Act to a baseline of \$303.5 billion over five years.

Just a few weeks prior, the full Senate also passed S.941, "Drinking Water and Wastewater Infrastructure Act of 2021" which reauthorizes the Clean Water and Drinking Water State Revolving Funds at \$3.25 billion annually over five years for a total of \$14.65 billion.

While very different in size and scope, both the Senate and House proposals represent an increase in funding for water (and transportation) infrastructure. Much remains to be seen in how the two chambers will reconcile their numbers, but one thing is certain: there will be a great deal of negotiation before either the stimulus bill or the base bills are passed in full.

FY 2022 BUDGET – INFRASTRUCTURE FUNDING

As previously reported, President Biden released a \$6 Trillion budget for fiscal year 2022, which includes new details on his previously proposed American Jobs Plan (AJP).

Clean Water Construction Coalition Report

(Continued from page 10)

- Funding for water infrastructure would be increased under the proposal, including:
- \$1.36 billion for the Drinking Water State Revolving Fund (\$1.13 billion in FY21)
- \$1.87 billion for the Clean Water State Revolving Fund (\$1.64 billion in FY21)
- \$72.2 million for the Water Infrastructure Finance and Innovation Act (WIFIA) program (\$59.5 million in FY21)
- \$81.5 million for Reducing Lead in Drinking Water grants, which help communities and low-income homeowners replace lead service lines (\$21.5 million in FY21)
- For transportation, the budget proposal would maintain existing funding levels for core highway, transit, and airport programs, and calls for a modest increase to transit construction by way of Capital Improvement Grants. It is worth noting that when coupled with the AJP, the proposal does represent a 5-year funding plan; however, it does not contain a full policy proposal for a surface transportation reauthorization bill, nor does it address projected shortfalls in the Highway Trust Fund. Included in the proposed budget:
 - \$47 billion for Federal Highway
 - \$12.5 billion for Public Transportation
 - \$3.3 billion for the Airport Improvement Program

Senate Republicans released a second counter proposal to the AJP, this time upping the ante to \$928 billion, which is a significant step forward from their initial \$568 billion offering in late-April. The Republican proposal includes the Surface Transportation Reauthorization Act of 2021, a multi-year funding bill unanimously approved May 26 by the Senate Environment and Public Works Committee that increases highway, road, and bridge funding by 34% over baseline. The shift comes days after Biden offered to cut \$550 billion from his original proposal, moving the two sides closer than they have ever been, and showing genuine negotiations between the two sides. The Senate Republican counter proposal includes:

- \$506 billion for roads, bridges and major projects — a \$91 billion increase
- \$65 billion for broadband
- \$48 billion for water infrastructure
- \$25 billion for airports
- \$22 billion for freight and passenger rail

Although there is still a large gap between them, both proposals bring us closer to some sort of funding package and give hope that the long-promised investment will finally come to fruition. One place where the conversation continues to diverge is in how the plans would be paid for. President Biden has proposed increased taxes on large corporations and high-earning individuals, while the

Clean Water Construction Coalition Report

(Continued from page 11)

Senate GOP is looking to repurpose existing COVID-19 funds, an approach that White House officials have repeatedly rejected.

The advancement of both proposals is encouraging, although many challenges still remain. No matter what form it takes, an infrastructure investment at the scale of either proposal would be transformative for the nation and a boon for the construction industry. The CWCC will continue to advocate for increased funding for the SRF and other critical programs.

What's next: The President's budget begins the annual appropriations process and serves as an outline for Congress of the Administration's spending priorities for the upcoming fiscal year. The budget is a proposal, and final investment decisions will be negotiated between Republicans and Democrats in the coming months.

President Biden and Senator Shelley Moore Capito (R-W.Va.), the top GOP negotiator, are expected to meet again. The House Transportation & Infrastructure Committee is scheduled to consider infrastructure legislation, which includes its highway and public transportation reauthorization proposal.
